The Master of Science in Investment Banking & Capital Markets is a one year program completely taught in English designed to take your knowledge of capital markets to a higher level.

In a fast-moving global financial environment, this program further explores the most recent developments in capital markets regulation and compliance. Our students graduate with a set of quantitative tools and with a solid knowledge of the regulations and ethics in investment banking and capital markets.

The Master of Science in Investment Banking & Capital Markets program is specifically targeted towards recent graduates in Finance, Business Administration or Economics willing to further develop their technical skills and knowledge in finance.

The program is open to candidates with an undergraduate degree from a recognized university with strong academic performance and with a good command of English (IELTS 6.5, TOEFL IBT 85, TOEIC 800, Cambridge Exam). Students with 6.0 IELTS may also be eligible for admission after successful interview with our overseas offices. Native English speakers or students who have had two years of courses taught in English are exempt. Other educational backgrounds will be considered case by case.

No prior knowledge of French is needed; however French language classes are mandatory for non-French speakers as part of the program. A GMAT score is an asset.
