PhD Studentships in Experimental Particle Physics, University of Sussex, UK

<https://beasiswaindo.com/scholarships/phd-studentships-in-experimental-particle-physics-university-of-sussex-uk/>

The University of Sussex Experimental Particle Physics group plays a critically important role in a number of experiments at the frontiers of our knowledge of particle physics, with main involvement in: the ATLAS experiment and its upgrades at the CERN Large Hadron Collider, the SNO+ neutrinoless double beta decay experiment at SNOLAB (Canada), the NOvA and DUNE neutrino oscillation experiments at Fermilab (USA), and the Neutron EDM experiment at PSI (Switzerland).

We are presently offering several fully funded studentships on these experiments available to UK and EU nationals for a September 2017 start. Funded studentships cover a tax free bursary (£14,553 per annum in 2017/18) and home/EU fees for 3.5 years. Additional financial support is provided to cover short-term and long-term travel. Interviews of shortlisted candidates will be held in February and March. There are also funding opportunities for non-EU students to work on projects in our group through a China Scholarship Council/Sussex joint scholarship (open to Chinese nationals) and the Sussex Chancellor's International Research Scholarship (open to any nationality).
